BioCenter Confocal Imaging Platform

for Mac users

To use our imaging platform you <u>HAVE</u> to be connected to SLU network

You can connect to SLU network via vpn from wherever you are

Please follow this link for the instructions.

https://internt.slu.se/sv/stod-och-service/it/support/gor-sa-har/vpn-anyconnect/

For this course you can use user account vbsg2 (the password you got during the seminar 2)

To get to your files

Finder File Edit View (Co Window Help) Back Forward Bit Select Startup Disk on Desktop 0 HT All My Files 0 HF Dobuminads 0 HD Dobuminads 7 HL All More 0 HH Computer 0 KH Computer 0 KH Applications 0 HA Withines 0 HU Recent Folders X Consect to Server... XK

1. In Finder -> Go -> Connect to Server

2. Type in smb://nj-focal2.vbsg.slu.se/2014 Confocal course Please make sure, that you have all capital letter and spaces on the place

3. Select Register user type in user name vbsg2 the password you got in the seminar 2 file

4. Here are the folders with your files

To use the Graphics computer via RDC

Please book the Graphics computer before using it!

Remote Desktop Connection							
Try again The credentials that were used to connect to nj-focal2.vbsg.slu.se are incorrect. Please enter your credentials again.							
User name: Password: Domain:	AD\vbsg2	14.00					
Add user information to your keychain							

1. Applications -> Remote Desktop Connection

2. Type in **nj-focal2.vbsg.slu.se** click on Connect and ignore the warning message

3. Type in as user: AD\vbsg2 the password you have from the seminar 2

You should see something like this

To see your images clearer
