

7th annual SLU Landscape CALL FOR IDEAS 2021-2022

Next steps to sustainability

The aim of Call For Ideas Projects is to stimulate interdisciplinary collaboration, expand and maintain networks within the landscape field, update the current state of knowledge and identify future visions and trends. Up to SEK 200,000 will be distributed equally to support four project proposals.

The theme 2021/2022 is in line with UN's and SLU's ambition to step up the work for sustainable futures, through systems perspective and interdisciplinary approaches. Three dimensions are highlighted and the integration of these; environmental, economic, and social. We therefore would like to inspire the next CFI projects to explore and debate what next steps for sustainability can be. How and what can we as researchers and teachers within SLU Landscape do in our everyday activities? And, how can we pass it on to our students and society?

TIMELINE

Launch
13 oct 2021

Submission due
28 nov 2021

Announcement of winners
13 dec 2021

Kick off project meetings
January 2022

CFI Workshops
SLU Landscape days
April 2022

Project reports due
September 2022

Public CFI project
outcomes presentation
SLU landscape days 2022

What form might these proposals take?

Maybe your group wants to formulate and illustrate a method that works well, develop a way of working with a set goal, or explore an idea for something new. The project can support ongoing work or start shaping something new.

For your project proposal to be eligible for CFI funding, your team must:

- Include at least 3 people from at least 2 SLU landscape units (SOL, LAPF, IMS, Movium, Urban Futures). If you like, invite an extern collaborator.
- Formulate an implementation plan.
- Concretize activities that add value to SLU Landscape.

What does a team need to include in their proposal?

ENGAGEMENT- list of the participants and their regular workplaces. Within SLU, also their main SLU activity, for e.g., research / teaching, w/dept, and campus location.

IMPLEMENTATION- provide an activity plan on time-line until August 2022; outline action step/tasks and preliminary budget. Identify a primary contact

RESULT- List concrete outcomes for SLU Landscape and team members that comes from realizing this idea. Also, identify immediate and long-term values.

Where do we send the proposal, and by when?

Email completed English proposals (2-page max) to maria.wisselgren@slu.se before 28 November 2021.

Proposals are assessed on: team mix, feasibility of action plans, proposed effects and relevance to SLU Landscape's mission to build on existing resources for the benefit of all SLU Landscape members. They are reviewed by SLU Landscape Steering Group: Chair: Caroline Dahl (Movium), Ingrid Sarlöv-Herlin (LAPF), Lars Johansson (SOL), Bruno Santesson (SOL/LA), Nina Vogel (Urban Futures Platform), Caroline Hägerhäll, (AEM) assisted by Maria Wisselgren (WG member)
