

Keep distance!

Wash your hands  
thoroughly and often!

Cough and sneeze into  
the bend of your arm!

Follow the instructions  
on the signs!

Stay at home if you feel  
unwell!

### Vaccination at Campus Alnarp

Region Skåne offers student vaccination on site in Alnarp on Friday **10/9** in Terra Nova.

The students who are interested must pre-register this to the service center via e-mail to: [vaccination.alnarp@slu.se](mailto:vaccination.alnarp@slu.se) no later than **6/9**.

#### **NOTE! Indicate the following in your pre-registration mail:**

- Name and social security number (if you haven't received any social security number yet, inform about that in your pre-registration).
- Is it time for your dose 2? Inform about which vaccine you received.
- If you have any allergies, inform Call Center on +46 771-320 320. If you have a severe allergy, you should be vaccinated in Lund as shown below.
- At the time of vaccination: Bring identification and vaccine card (if you have received dose 1).

Swedish and international students can also book an appointment at the Vaccination Clinic at Baravägen 1 in Lund. Call to make an appointment: Monday-Friday, 9.00-15.00, phone number: +46 771-320 320

*Thank you for getting vaccinated!*

## Important information!

Due to the ongoing covid-19 pandemic, we want to request you students at SLU in Alnarp for help.

# To consider!

## **To and from Alnarp**

If possible, we recommend that you travel to campus by bike or walk. Avoid public transport as much as possible where it is not possible to book a place.

## **Keep distance!**

Remember to always follow the public health authority's recommendations, and keep your distance (this applies to new and old classmates as well as to teachers and staff) and not to gather in too large groups.

## **Wash your hands!**

Wash your hands thoroughly and often and avoid touching your face. Cough or sneeze into the bend of your arm or in a paper tissue.

## **Disinfectant**

Disinfectant stations are available at entrances, student kitchens and selected common areas. Disinfectants and paper will be available at the

lecture and computer rooms, disinfect after your use.

## **Face masks**

You are welcome to use face mask, but you may provide yourself with this.

## **Signs**

The campus is signposted in the buildings and in the classrooms to help keep distance and control how we walk. Follow these recommendations.

## **Distance between chairs**

In the classrooms, chairs are separated to maintain distance. Do not move the chairs.

## **Separate entrances and exits**

Where possible in buildings and classrooms, separate entrances and exits will be marked. This also applies to different stairs. Follow signs for exit and entrance and how to move around the premises. Follow the right flow!

In emergency situations, of course, the emergency evacuation signs apply in the first place.

## **Lunch**

If you want to bring food, feel free to bring cold food to avoid congestion in the kitchen. Possibilities for washing dishes are limited in the student cafés. Do not eat lunch in the classrooms. Feel free to eat outdoors!

## **Restaurant**

At the restaurant in Alnarp, the same recommendations apply as for the rest of the campus. Keep distance in the queue and don't sit close.

## **Stay at home if you feel unwell**

You who have a confirmed covid-19 infection should stay at home for at least seven days after you have fallen ill. You should also have been fever-free the last two of these days and clearly feel better. The same applies if you have been ill but not had covid-19.

## **The Communicable Diseases Act**

If you have received confirmation of covid-19, you are covered by the Communicable Diseases Act and must inform the people you have met. Primary healthcare providers may also help with this and in some cases may completely take over the contact tracing process. Contact tracing can be a question of vital importance to prevent further spread or large outbreaks of the disease. It is also important to inform your course leader by e-mail.

## **More information**

You find more information on SLU's studentwebb: [student.slu.se](http://student.slu.se).

**If we help each other we can avoid increased spread of infection that can affect ourselves and others in society!**
