
Hello,

I have been informed that Formas have reduce the number of criteria from five (Research question, method and performance, scientific competence, societal value, and commucation) to four. However what four criteria are not yet know to the public. Formas will make this public when they published the call (on the 25th of February) and they will also inform about it at a webinar on the 5th of March.

Please follow the link for more the webinar.
