Hello,

I have been notified that some information in Fridays mail was insufficient regarding the VH H2020 calls and proposals..

Therefore here comes additional info regarding the H2020 calls/proposals

These are the proposals just submitted under the SC2 deadline yesterday (which was actually extended to today due to technical problems with the participant portal). I can't guarantee it's 100% up to date, since some extra partner proposals could be added before the final deadline of 5pm today, but here's what we know of for VH at the moment:

## INFORMATION FROM GRANTS OFFICE

These are the proposals just submitted under the SC2 deadline yesterday (which was actually extended to today due to technical problems with the participant portal). I can't guarantee it's 100% up to date, since some extra partner proposals could be added before the final deadline of 5pm today, but here's what we know of for VH at the moment:

Ulf Emanuelson	Clinical Sciences	Partner	H2020	SFS-10
Patrice Humblot	Clinical Sciences	Partner	H2020	SFS-13

Ulf and I worked actively with all four of the coordinated proposals for VH. Anders, Göran and Harry all submitted stage 1 proposals, and we should hear the results at the end of April on whether they have made it to stage 2. Stefan submitted a full proposal (a CSA), and we should get the results on whether it has been selected for funding towards the end of June.

These stage 1 proposals were also submitted under other parts of H2020 since the last VH-EU team meeting (results due in mid-March):

Coordinator	Department	Role	Funder	Topic

	Biochemistry			21
Gabriella Lindgren	Animal Breeding & Genetics	Partner	H2020	BIOTEC-07
Patricia Hedenqvist	Clinical Sciences	Partner	H2020	NMBP-21
