

## Horizon Europe – calls of potential interest for GENDER research

The SLU Grants Office has identified open and upcoming Horizon Europe calls under different themes that may interest SLU researchers. You are welcome to [contact the Grants Office](#) for advice or support if there is a call you find interesting or if you are thinking about leading a proposal.

Please check the [published work programmes](#) or individual call pages (linked below) for the most up-to-date information.

**Note: It is mandatory to incorporate a gender dimension (sex/gender analysis) in the research content for all Horizon Europe Pillar II projects** unless the call text explicitly states otherwise. Therefore, rather than listing all calls where a gender dimension is mandatory, here we have identified calls with a specific focus on incorporating gender (and other social dimensions).
