

Horizon Europe – calls of potential interest for GLOBAL DEVELOPMENT research

The SLU Grants Office has identified open and upcoming Horizon Europe calls under different themes that may interest SLU researchers. You are welcome to [contact the Grants Office](#) for advice or support if there is a call you find interesting or if you are thinking about leading a proposal.

Please check the [published work programmes](#) or individual call pages (linked below) for the most up-to-date information.

Note: Under Horizon Europe rules, around [120 low- to middle-income countries](#) are automatically eligible to receive funding for most project types across the whole programme (there are some exceptions, e.g. CSAs). In addition, many topics encourage international cooperation beyond the EU Member States. We have not listed all those topics here but instead have focused on those which identify global development or the inclusion of low- to middle-income countries as essential.
