

## Seminar regarding the implementation of the Nagoya protocol at SLU

**When:** January 17<sup>th</sup>. 13.00–16.00

**Where:** Sal L in Undervisningshuset at Ultuna, The seminar will be broadcasted and you can follow it live on this link: <http://tcs.video.slu.se/tcs/?id=cb50e1b4-c837-4d61-865b-96b5c0bfe334>

During the seminar you will be able to e-mail to [Jens.Sundstrom@slu.se](mailto:Jens.Sundstrom@slu.se). The seminar will also be available afterwards at the link above.

**Why:** As of 2016 researches at SLU who utilize genetic resources and traditional knowledge from other countries need to do the declaration of this usage in agreement with the rules stipulated by the Nagoya protocol and the EU ABS-regulation. Otherwise you will not be able to receive research funding from several research funding agencies see also <http://www.naturvardsverket.se/abs> .

To help SLU researchers adhere to the Nagoya protocol the SLU vice chancellor has appointed a Nagoya working group, and we now invite scientists, prefekts and other interested personnel to a seminar during which we will inform about the Nagoya protocol and its implementation, internationally and here at SLU.

### Program:

13.00-13.15	Welcome	Jens Sundström
13.15-14.00	What is the Nagoya protocol Naturvårdsverket.	Karolina Åsman
14.00-14.20	Break
