

Connect Android mobile to SLU wi-fi

Go to the Wi-Fi settings in your phone.

Search for available networks and choose SLU.

Enter:

EAP-method = PEAP

Phase 2 Authentication = MSCHAPv2

CA-certificate = Choose "Don't validate" or "None"
or if those are missing "Use system certificates" and
specify Domain as ad.slu.se

Identity = your AD user name (format: abcd0001)

Anonymous Identity is left empty

Password= your AD password.

Click Save or Connect, depending on Android version.

The screenshot shows the configuration screen for connecting to a Wi-Fi network. The settings are as follows:

- EAP-metod:** PEAP
- Autentisering för fas 2:** MSCHAPv2
- CA-certifikat:** Ingen
- Identitet:** (empty text field)
- Anonym identitet:** (empty text field)
- Lösenord:** Ange lösenord (with an eye icon for visibility toggle)

Below the main settings, there is a section for **Avancerade inställningar** (Advanced settings):

- Proxy:** Ingen
- IP-inställningar:** DHCP
- Integritetsskydd:** Använd slumpmässig MAC-adress
- Med datapriser:** Upptäck automatisk
