Connect Android mobile to SLU wi-fi

Go to the Wi-Fi settings in your phone.

Search for available networks and choose SLU.

Enter:
EAP-method = PEAP
Phase 2 Authentication = MSCHAPv2
CA-certificate = Choose "Don't validate" or "None"
or if those are missing "Use system certificates" and
specify Domain as **slu.se**
Identity = your AD user name (format: abcd0001)
Anonymous Identity is left empty
Password= your AD password.

Click Save or Connect, depending on Android version.
