Create an application for alternative exam arrangements

Below is a suggestion for how to do this:

1. Add the link to the application form in the Ladok link box.
2. In the box intended for additional information to the student, you write an explanatory text such as this:

If you have recommended educational support for exams and wish to use it for this exam – click the link in the box above. *Please note that your application should be done before the registration time closes in Ladok.*
