

## Export files from Fronter

### Pre-conditions

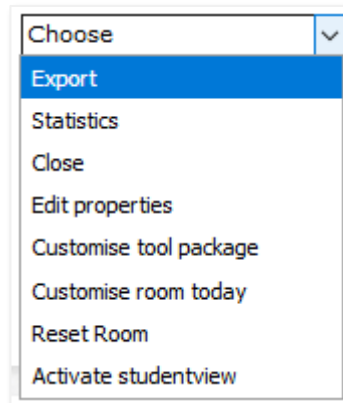

In Fronter there is a function that helps you retrieve files from the course room. You need to be granted the Owner permission in the course room to have access to this function.

### Take these steps

Go to **Room** (the name might have been changed, look for this icon of the tool)

In the right hand corner, select **Export** in the drop-down menu.

**Export type:** select Resource folder content export with structure  
Select the folder/hand-in folders you want to export.

**Content export**

**Export type:**  Fronter internal room export  
 IMS folder content export  
 Resource folder content export with structure

**Description:** The selected tools/folders will be exported as a zip file with the directory structure intact

Choose tools/folders to include in the export:

- BI0797 - Fårproduktion och företagande
- Resources
- Hand-in

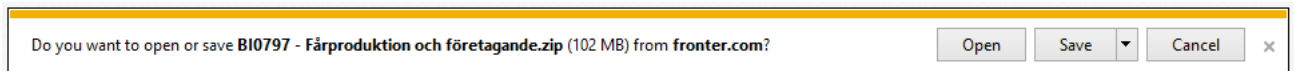

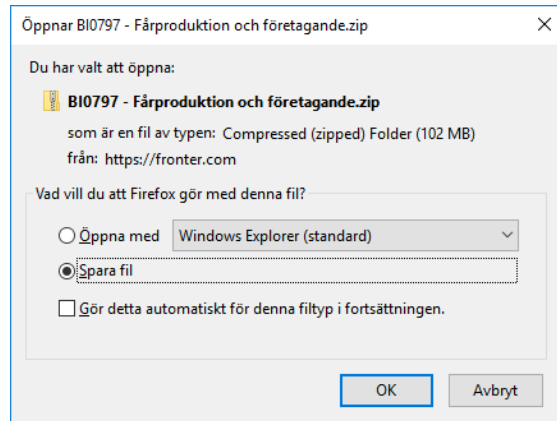

**Export** **Back**

### Select **Export**

If you have selected all content in the course room the file you are exporting will automatically be given the course room name.

The file format will be .zip

Select **OK**

The Save as dialogue box might look different depending on the browser you are using

What does my exported file contain?

The structure of the folders will be retained, but the Swedish characters ÅÄÖ doesn't Fronter handle at all.

Name	Type
Arkiv	File folder
Inlämning	File folder

## The folders in the export

Name	Type
F-relösningen 15 februari	File folder
images	File folder
Referensuppgift (nr4)	File folder

## Problem?!

### **My export is not working, I only receive an error message**

If your course room contains many large files the export function will not work if you try to export it all at once.

 **Oops, something went wrong (but it's not your fault)**

We're very sorry. This should never happen, and we respect how inconvenient this must be to you.

Sometimes this happens because something took too long. It could be that reloading the page will resolve the problem, but you'll most likely lose what you were working on. If this happens more than once, please see the link to Fronter Support below.

A timeout occurred

The origin web server timed out responding to this request.

Ray ID: 40c684fbafa18625  
Your IP address: 130.243.2.169  
Error reference number: 524  
Cloudflare Location: Stockholm

## Solution

Export parts of the course room at a time. Select the plus sign in front of the folder, and select a few folders at a time to export.

**Export av innehåll**

**Typ av export:**  Fronters interna rumsexport  
 IMS export av arkivinnehåll  
 Export av arkiv med bibehållen fil-/mapstruktur

**Beskrivning:** Det valda verktygen/mapparna kommer att exporteras som en .zip-fil. Strukt

Välj verktyg/mappar att ta med i exporten:

- LK0284 (10120.1718) - Digital Landscape Visualisation
  - Arkiv
    - Assignment 1 Literature & Group Assignment
    - Assignment 2 SketchUp
    - Assignment 3 V-ray for SketchUp
    - Assignment 4 Photoshop
    - Assignment 5 Visualisation Project
    - Assignment 6 Selecting views, detailing and dummy
    - Assignment 7 Detailing and finding your style
    - Assignment 8 Refining Images & Layout
    - Groups
    - Guest Lectures
  - Inlämning
