Document(s) repealed: SLU.Itv.2017.3.2.1-757

General syllabus for the doctoral programme in the subject of: LANDSCAPE ARCHITECTURE

1. Programme content and scope

The programme has two main components: courses and the doctoral thesis.

Thesis work

During the period of study, the doctoral student shall carry out independent research, which is presented in a compilation thesis written in English.

Courses

The coursework shall comprise 45–60 credits for the degree of Doctor and 22–30 credits for the degree of Licentiate. The coursework shall include both appropriate general courses in transferable skills and individually selected subject-specific courses.

2. Specific entry requirements

The following specific entry requirements apply:

For the subject of landscape architecture, the applicant must have the equivalent knowledge to a minimum of 90 credits in relevant subject areas. This must include a degree project, and at least 30 credits must be at the advanced level.

3. Overall rules for doctoral education at SLU

Third-cycle (doctoral) education is regulated by the Higher Education Ordinance (SFS 1993:100) and the Ordinance for the Swedish University of Agricultural

Sciences (SFS 1993:221).

The local governing documents that regulate doctoral education at SLU level can be found on the page [Regulations and forms for doctoral education](#).

The programme is organised in a way that allows doctoral students to meet the qualitative targets for third-cycle courses and programmes specified in the Higher Education Ordinance's Annex 2 – System of Qualifications (see appendix 1).

4. Miscellaneous

Each faculty offering the third-cycle subject can choose to specify specialisations or requirements in addition to the general syllabus. These requirements must be documented in an appendix.

5. Appendixes

Appendix 1. Higher Education Ordinance Annex 2 – System of Qualifications.

Appendix 2. Faculty of Landscape Architecture, Horticulture and Crop Production Sciences specific requirements for the subject (if applicable)

Appendix 1. Higher Education Ordinance (SFS 1993:100)

Annex 2 – System of Qualifications.

Degree of Doctor [Doktorsexamen]

Scope

A Degree of Doctor is awarded after the third-cycle student has completed a study programme of 240 credits in a subject in which third-cycle teaching is offered.

Outcomes

Knowledge and understanding

For the Degree of Doctor the third-cycle student shall

- demonstrate broad knowledge and systematic understanding of the research field as well as advanced and up-to-date specialised knowledge in a limited area of this field, and*
- demonstrate familiarity with research methodology in general and the methods of the specific field of research in particular.*

Competence and skills

For the Degree of Doctor the third-cycle student shall

- demonstrate the capacity for scholarly analysis and synthesis as well as to review and assess new and complex phenomena, issues and situations autonomously and critically,*
- demonstrate the ability to identify and formulate issues with scholarly precision critically,*
- autonomously and creatively, and to plan and use appropriate methods to undertake research and other qualified tasks within predetermined time frames and to review and evaluate such work,*
- demonstrate through a dissertation the ability to make a significant contribution to the formation of knowledge through his or her own research,*
- demonstrate the ability in both national and international contexts to present and discuss research and research findings authoritatively in speech and writing and in dialogue with the academic community and society in general,*
- demonstrate the ability to identify the need for further knowledge and,*
- demonstrate the capacity to contribute to social development and support the learning of others both through research and education and in some other qualified professional capacity.*

Judgement and approach

For the Degree of Doctor the third-cycle student shall

- demonstrate intellectual autonomy and disciplinary rectitude as well as the ability to make assessments of research ethics, and*
- demonstrate specialised insight into the possibilities and limitations of research, its role in society and the responsibility of the individual for how it is used.*

Research thesis (doctoral thesis)

For the Degree of Doctor the third-cycle student shall have been awarded a pass grade for a research thesis (doctoral thesis) of at least 120 credits.

Miscellaneous

Specific requirements determined by each higher education institution itself within the parameters of the requirements laid down in this qualification descriptor shall also apply for a Degree of Doctor with a defined specialisation.

Degree of Licentiate [Licentiatexamen]

Scope

A Degree of Licentiate is awarded

- either after a third-cycle student has completed a study programme of at least 120 credits in a subject in which third-cycle teaching is offered,*
- or after a third-cycle student has completed one part comprising at least 120 credits of a study programme intended to conclude with the award of a PhD, if a higher education institution decides that a Degree of Licentiate of this kind may be awarded at the institution.*

Outcomes

Knowledge and understanding

For a Degree of Licentiate the third-cycle student shall

- demonstrate knowledge and understanding in the field of research including current specialist knowledge in a limited area of this field as well as specialised knowledge of research methodology in general and the methods of the specific field of research in particular.*

Competence and skills

For a Degree of Licentiate the third-cycle student shall

- demonstrate the ability to identify and formulate issues with scholarly precision critically, autonomously and creatively, and to plan and use appropriate methods to undertake a limited piece of research and other qualified tasks within predetermined time frames in order to contribute to the formation of knowledge as well as to evaluate this work,*
- demonstrate the ability in both national and international contexts to present and discuss research and research findings in speech and writing and in dialogue with the academic community and society in general, and*
- demonstrate the skills required to participate autonomously in research and development work and to work autonomously in some other qualified capacity.*

Judgement and approach

For a Degree of Licentiate the third-cycle student shall

- demonstrate the ability to make assessments of ethical aspects of his or her own research,*
- demonstrate insight into the possibilities and limitations of research, its role in society and the responsibility of the individual for how it is used, and*
- demonstrate the ability to identify the personal need for further knowledge and take responsibility for his or her ongoing learning.*

Thesis

For a Degree of Licentiate the third-cycle student shall have been awarded a pass grade for a research thesis of at least 60 credits.

Miscellaneous

Specific requirements determined by each higher education institution itself within the parameters of the requirements laid down in this qualification descriptor shall also apply for a Degree of Licentiate with a defined specialisation.

Appendix 2. Faculty of Landscape Architecture, Horticulture and Crop Production Sciences specific requirements for the subject (if applicable)

Specialisations

The LTV faculty offers PhD education in the subject of Landscape Architecture with the possibility of one of the following specialisations: Landscape Planning, Vegetation and Management, Landscape Analysis, Environmental Psychology.

Specific requirements at the LTV Faculty for all specialisations in Landscape architecture

The extent of the scientific work as well as the coursework is described below:

Doctorate comprises 240 higher education credits in total

Courses 45-60 credits, of which

Subject courses constitute at least 30 credits

General courses constitute at least 12 credits

Remaining credits are elective

Licentiate comprises 120 higher education credits in total

Courses 22-30 credits, of which

Subject courses at least 15 credits

General courses at least 6 credits

Subject courses

Subject courses provide in-depth subject studies and/or complementary studies.

Subject courses can be both theoretical and methodological. Even individual courses which have an approved syllabus are included here.

General courses

A general course is a course which provides general competence required by virtually all PhD students in the faculty. Decisions on which courses are general courses is made by the LTV doctoral education committee. In principle, all courses for which the faculty receives funding from the council for PhD education (FUR) are general courses. Recommended courses are the PhD-level courses at SLU arranged by this faculty or another SLU faculty, but equivalent courses at other universities are also accepted.
