Symposium on Plant Resistance Ecology

16 May, 2019. Crafoordsalen, Alnarp

- 14:00 – 14:30 **Elevation gradients and trophic (mis)matches**
Paul Ode
- 14:30 – 14:40 **Integrated Pest and Pollinator Management**
Paul Egan
- 14:40 – 14:50 **Breeding for resistance to aphids in barley**
Inger Åhman
- 14:50 – 15:00 **Tolerance and overcompensation to infection by *Phytophthora infestans* in the wild perennial climber *Solanum dulcamara***
Åsa Lankinen
- FIKA**
- 15:15 – 15:45 **Cross-seasonal consequences of herbivory for tritrophic interactions on lima bean plants**
Betty Benrey
- 15:45 – 15:55 **Host plant choice in a moth: are there transgenerational effects?**
Peter Anderson
- 15:55 – 16:05 **Exploring the possibilities of plant tolerance in plant protection**
Anne Muola
- 16:05 – 16:15 **Pre-breeding for disease resistance in Nordic spring barley**
Therese Bengtsson
- FIKA**
- 16:30 – 17:00 **Bitter & Sweet: *Solanum dulcamara*-insect interactions**
Anke Steppuhn
- 17:00 – 17:10 **An evolutionary perspective on soil feedbacks of plants under above- and belowground herbivory**
Minggang Wang
- 17:10 – 17:20 **Intra-species diversification using “elite plants” reduces herbivory and increases resilience in strawberry**
Tuuli Koski
